What does Bollywood mean to you? India, music, romance, song, drama, dance, comedy, action? All of the above... And more? Here at Time Out, we've already found the best comedy films, romantic movies and horror movies. Now we celebrate the best Bollywood movies: movies that have been entertaining audiences in India and around the world for more than six decades. To find the 100 best Bollywood films ever made, we were asked to select a group of Indian, British and American Bollywood experts to share their favorite major Hindi films. We then used our choices to clarify our list of great Bollywood movies - movies that show actors and actresses adored by their fans and songs and dances are often better known than the movies themselves. If you want to know more about Bollywood, check out our beginner's guide. And if you're still wondering what Bollywood is about, why not listen to superstar Amitabh Bachchan, who has a simple definition of what Bollywood is: Poetic Justice in two and a half hours. Enjoy! Produced by Alex Plim. Edited by Dave Calhoun and Rahul Verma. Written by Anirudda Guha, Anil Sinanan, Rahul Verma, with Anushka Arora, Varun Grover, Shay Hussain, Ashanti Omkar and Beth Watkins This is one of Hollywood's biggest tourist myths, and this time has been busted. Constantly. Don't let these cheesy travel companies fool you into thinking you can catch a glimpse of a leading lady walking a dog or a leading person mowing the lawn while you drive around Hollywood in a big, noisy bus. It's a simple truth: You're more likely to see an elephant walk down Hollywood or Beverly Hills street than you should spot a movie star. And despite the fact that all these travel companies and street card sellers want you to think, strikingly few favorite celebrities today own homes in these areas. Before you go on a movie star's home tour or look for your residence on your own, there are some things you should know. Read on to find out what it is. And don't despair. If you want to see a celebrity you can. Guaranteed. Just use this guide to see celebrities in Los Angeles. Grant Faint/The Image Bank/Getty Images Plus Many of today's Hollywood stars don't live in Hollywood, or Beverly Hills, or any of the other neighboring areas. Some may live in Malibu or Orange County. Many more homes are thousands of miles from Los Angeles. The few who have homes in Hollywood cherish their personal lives. They put up fences that the giraffe couldn't look in and plant hedges so the dense mosquito couldn't pass. They want to shield their homes from prying eyes, and you can't blame them. Who wants some paparazzi, or even a tourist from East Chip to take pictures when they try to relax? To satisfy the curiosity of visitors, tour operators and cartographers emphasize the places where the star used to live. In some cases, they just make up things or rely on unsubstantiated facts that are anything but accurate. Among the outrageous statements they make The Beverly Hills fire hydrants are platinum- perhaps thinking their guests are so gullible that they won't wonder why someone didn't rip them off just to get the precious metal. Grant Faint/The Image Bank/Getty Images Plus On Hollywood Boulevard, in Beverly Hills, in Brentwood and on the Sunset Strip, you'll find dozens of street vendors hawking maps that claim to show you where movie stars are, their handwritten signs boasting Maps to the Stars Home. You may be tempted to buy one of these cards and run around Beverly Hills to insert a camera out of a car window. In fact, their information is depressingly out of date, if it was ever accurate, from the beginning. Don't fall in love with that. If you like to poke fun at yourself and others, here's what you can do instead and you don't have to pay a dime for one of these useless cards. Just drive to photograph expensive, beautiful houses and make up a story about who lives there. People at home will never know the difference. City of Beverly Hills If you are unlikely to see the home of real stars and even less likely to see the stars themselves, most Hollywood movie star tours are a waste of your hard earned money. However, some tourists may ignore this, many companies offer movie star home tours in Hollywood and Los Angeles. They make claims like seeing where the stars actually live or tour all your favorite Hollywood movie star houses. Travel companies don't fare better than card-sellers in terms of accuracy, and they will cost you even more. However, there are a few tours that are worth your time: The Beverly Hills trolley tour tells you for the front that they will respect the privacy of current residents, but they dish up generous portions of tales about those who lived there. And they take you to some of the city's wealthiest neighborhoods. Dear Departed Tours is run by Scott Michaels, who prides himself on backing up everything with facts. This entertaining tour will take you to a lot of interesting places and celebrities at home and places where strange things have happened. And even though the name may make you think, it's more gossip than creepy. ATOMIC Hot Links / Flickr CC 2.0 One place that you can be sure that the star is really in residence is at their final resting place. Hollywood Forever Cemetery is chock full of celebrities of yesteryear and happy to help you find your graves. In fact, you can find their locations on a handy map right on their website. The legendary Forest Lawn also contains the remains of famous people of all ages, but they are less useful for visitors. You can use an interactive map on Seeing-Stars.com to find them. Marilyn Monroe's crypt can be found at Westwood Village Memorial Park. You can find it and more Marilyn related sites in California. Seeing-Stars.com also has a large more celebrity burials in the Los Angeles/Hollywood area, or you can look extensively in FindAGrave.com. Thank you for letting us know! A .mp4 file is the MPEG-4 video file format. MP4s are one of the most common formats of video files used to download and stream video from the Internet. It is a very versatile and concise video format that can also store audio, subtitles and images. ANSWER: What is a file extension? What is an MP4 file? The MP4 files were created in accordance with ISO/IEC 14496-12:2001 by the ISO/IEC and Motion Picture Experts Group (MPEG). Because of this, the MP4 is an international standard for audio-visual coding. Originally created in 2001, MPEG-4 Part 12 was based on the fast-time file format. MOV). The current version - MPEG-4 Part 14 - was released in 2003. MP4 is considered a digital format of a multimedia container - in fact, a file containing a lot of compressed data, the standard determines how the data is stored in the container itself, but not how that data is encoded. With the high degree of compression used in MP4 video, this allows the files to be much smaller in size than other video formats. Reducing the size of the file also does not immediately affect the quality of the file. Almost all of the original quality is preserved. This makes the MP4 portable and web video format. While MP4 files can play audio, they should not be confused with M4A and MP3, as these are file formats that contain only audio. ANSWER: What is an MP3 file (and how to open it)? How do I open an MP4 file? Because MP4 is a standardized file format for video, almost all video players support MP4. To open the file, all you have to do is double-click the video and it will open with your operating system the default video viewing. Android and iPhone at home support MP4 playback, as well as just click on the file and you'll watch videos in your spare time. Windows and macOS users can play MP4 files without installing any third-party software. Windows uses Windows Media Player by default; In macOS, they play with the help of a quick time. If, however, you prefer a different video player than any of them, changing the file association is a simple process on Windows or macOS. And you probably won't even have to. When you install a new video playback app, there is a good chance that the new app will claim to be connected to MP4 files during installation unless otherwise stated. Hollywood has released some proud masterpieces that never forget, but he also had many setbacks. We're not just talking about the bombs at the box office, but also about the movies that are so embarrassing to those who created them that they actively want you to see them. All hope is not lost though! Thanks Thanks powers to be and YouTube, you can still find a lot of them on the internet. So what movie disaster are you missing? Here are 10 movies Hollywood doesn't want you to see. 1. Star Wars Holiday Special Star Wars Holiday Special: CBS Before the prequels were even thought, George Lucas had already started his downward spiral with this TV movie. The special aired on CBS on November 17, 1978 and has not aired since. The special shows Chewbacca rushing home to celebrate a Day of Life on her home planet with his wife, son and father. Yes, he supposedly has a family. All the main characters of the film in appearance, although it mainly focuses on the Family Chui. It has many celebrity appearances including Bea Arthur, Diahann Carroll, and more. You can't buy a movie anywhere, but you can find it on YouTube. Why? George Lucas wants us all to pretend it never happened. If I had the time and sledgehammer, Lucas said, according to salon, I would hunt down every copy of this show and break it up. Instead he tried to buy all the master copies of it so no one could distribute it. 2. Fantastic Four (1994) Fantastic Four Source: New Horizons Yes, this franchise has always been cursed. This 1994 attempt was limited to a trailer (which you can find on YouTube) and posters so that Roger Corman could retain the rights to The Fantastic Four. He didn't really have any intention of releasing the film, but of course the film slipped out and copies were passed around at comic conventions. The low-budget film included Dr. Doom. There is also a documentary called Doomed! The untold story of Roger Corman's Fantastic Four about the whole disaster. 3. Skatetown, USA Skatetown, USA Source: Rastar Pictures Actors should start somewhere, and Patrick Swayze started here. The film also featured Scott Baio and Maureen McCormick telling the story of rival skaters coming together for a roller disco competition. The film failed, and according to IMDb, the film was never licensed or released on video, cassette or DVD. However, you can catch some of the clips on YouTube. McCormick wrote about the film in her book Here's the Story: Survivors of Marcia Brady and Finding My True Voice: Like a disco, there was a lot of cocaine on stage. A lot of people were open about it. 4. Song of the South Song Of the South Source: Walt Disney Productions Huge Media Company would prefer you to forget about its racist past. One way to do this is to hide this movie. The film shows a former slave named Uncle Remus telling the story of Br'er Fox, who tricks Br'er Bear. It is full of subordinate black characters, which are terribly drawn. Unlike other films on the list, this one was actually successful and won an Oscar for its song, Sip-a-Dee-Da-Da. So what happened to this movie? According to Slate, he was in the vault. for years to keep him from being released. 5. Day the clown cried day clown clown | Source: Europa Studios Jerry Lewis plays a clown who goes to prison by the Nazis after making fun of Hitler. It sounds like a crazy premise, and it's no wonder it didn't really work. He not only acted in it, but the director and wrote it. Lewis has a single copy of the film and keeps it locked in a private vault. However, it allowed the film to be preserved in the Library of Congress according to IMDb. The film remains a touchy theme for Lewis. A reporter asked him in 2008 when he would release the film. According to IMDb, he reportedly replied: None of your damn business! 6. Don Don's Plums Source: Polo Pictures Entertainment's Leonardo DiCaprio and Tobey Maguire have some great movies on their resume, but they're probably more likely to have you forgotten about this project. The story follows Los Angeles teens who meet every day at a local diner to talk about their miserable lives. So why haven't we heard about it? DiCaprio and Maguire filed a lawsuit to block the film. According to E! Online they did this only as a favor and did so provided that it would never be released. As a result, the film cannot be released commercially in the U.S. or Canada. 7. Hippie Shake Hippie Shake Shake: StudioCanal This film is an adaptation of Richard Neville's memoir about his experiences with counterculture in the 1960s. According to IMDb, this film was written to compensate for the failure of the film Green zone, but insurers reportedly provided the original negative camera to be destroyed. Part of the problem with the film is probably because of the drama going on set. The writer and director left while it was edited, thanks to creative differences. 8. Let it be let it be Source: Apple Corps there are a bunch of documentaries about The Beatles, so you'd think it would be hard to go wrong with that. However, this film is about a group trying to regain their chemistry, and begin to fall apart. Of course, in real life they couldn't do it, so the movie probably doesn't have a happy ending. However, we won't know how this will end. According to the Express, Paul McCartney and Ringo Starr blocked the film on DVD, not wanting fans to watch the band's violent breakup. 9. Can I do it... while I need glasses? Can I do that... while I need glasses? Source: Dauntless Productions Movie has a number of parodies that mostly revolve around sex. Robin Williams had a short look in it but was edited out of the final cut. However, as soon as it started to get popular, the film was re-released with its stage in it right before Popeye leaves. Of course, they used Williams in the trailer to promote it, even though he's in the film for less than two minutes. According to IMDb, he sued the producers over the matter, and it was all settled in out-of-court for \$5 million.10. Cox walker Blues Cox walker Blues Source: Robert Frank Here's More a group that really hated their documentary. Film. The film went behind the scenes with the Rolling Stones when they were on tour after Altamont. The group sued to prevent the film from being distributed, and only bootleg copies are available today. But the film was not completely buried. According to Rolling Stone, it was shown at the Museum of Modern Art during the two-week festival. Like many hidden gems of the movie, you can find it on YouTube. Check out the Entertainment Cheat sheet on Facebook!
